

## CANOPY CENTER NEEDS YOU – AND YOUR CAR!

Do you have a reliable vehicle and some time to share in the late afternoons? If so, we need your help! We need volunteers to transport some of the children we serve to and from appointments. The cost of providing cabs is too much for our budget to bear. For the rides listed below, providing cabs cost \$792 each month! Our transportation budget is only around \$2,000 for the entire year and we may have it spent out by the end of March.

Providing transportation to agency clients

- 1) You will need to become a volunteer of the agency. You will complete a volunteer application and we will conduct a background check. This is for the safety of both you and our clients.
- 2) Once you are a volunteer, the agency carries liability insurance on you and a secondary policy that would come into play should an accident occur.
- 3) We don't allow volunteers to be alone with a child, therefore, we need two people to be in the car when transporting any children on behalf of the agency. This policy protects both volunteers and our clients.
- 4) Training will be provided to ensure you are comfortable with your volunteer commitment.
- 5) You select which days/trips you will cover each week. You will need to notify us as soon as possible if you are unable to provide a ride for which you are signed up.

Current clients needing transportation to/from Canopy Center (Canopy Center is at 1457 E. Washington Ave.):
